NAVIGATING THE S & G OF ESG

WAYSTONE
DUBLIN

Join us for this exclusive in-person event. During the insightful discussion, our panellists will delve into social issues and how they link in with the climate finance, and broader sustainable finance, agenda. They will also deal with governance structures and how they can support environmental and social issues. This will be given context across real economy and financial services organisations and the panel will also touch on the impact of mandatory corporate reporting requirements on these social and governance issues.

Held in partnership with the [Green Team Network](#).
